

SAINABOU CAMARA

CYBERSECURITY ANALYST • PYTHON DEVELOPER • SOFTWARE DEVELOPER • TECH SUPPORT

Email: Sainabou144@gmail.com | GitHub: <https://github.com/Yasai44> | Portfolio: <https://yasai44.github.io> |

LinkedIn: <https://linkedin.com/in/sainabou-camara-8630b1255>

SUMMARY

Entry-level technologist specializing in cybersecurity, Python development, backend systems, and practical tooling. I learn by building real projects, from supply-chain security scanners to booking systems and mobile apps. I'm focused on developing strong technical fundamentals, improving software security, and growing into a well-rounded cybersecurity professional.

TECHNICAL SKILLS

Python | Flask | Node.js | TypeScript | Flutter | SQLite | Prisma | Cybersecurity fundamentals | System auditing | Networking (pfSense, routing, firewalling)

PROJECTS

Chain Scan – Python Supply Chain Security Tool

A security analysis tool that detects supply-chain risks in Python dependencies.

- Scans PyPI packages and local Python files.
- Analyzes metadata + code indicators.
- Generates JSON and HTML risk reports.
- Include a Flask dashboard.

GitHub: <https://github.com/Yasai44/ChainScan>

System Health & Security Checker – Python + CustomTinker

A desktop tool for system diagnostics and security checks.

- CPU, RAM, disk, OS info
- Firewall, antivirus, update checks.
- Auto-generated JSON, CSV, and HTML reports.

GitHub: <https://github.com/Yasai44/system-health-checker>

SPA Booking Backend – Node.js, Express, TypeScript, Prisma

A modular backend booking system with authentication and admin workflows

- JWT auth + role-based access
- Admin service management
- User + admin booking flows
- Prisma ORM + migrations
- 80%+ test coverage

GitHub: https://github.com/Yasai44/spa_booking_backend

WORK EXPERIENCE

Cast Member – Landmark Cinemas, Waterloo, ON | January 2025 - Present

- Resolved customer issues quickly and professionally, building strong troubleshooting habits.
- Communicated clearly with team members to coordinate tasks during high-volume periods.

- Practiced reliability, time management, and problem-solving
- Managed POS systems and followed operational procedures with precision.

EDUCATION

COMPUTER PROGRAMMING DIPLOMA – CONESTOGA COLLEGE (2026)

Focused on software development, databases, algorithms, and application programming. Strengthened debugging, problem-solving, and secure coding fundamentals through hands-on projects.

CERTIFICATIONS

ISC2 – CC Course Conclusion & Final Assessment

Issued: July 2026 Valid for 3 years

Learner ID: 32bb11a2-78c7-4bd2-8b74-cfd741927ce8
